

THE FIGHT AGAINST COVID-19(Ghana and China in perspective)

(12/03/2020)

China has been one of the peaceful and one of the world's economic giants when it comes to production and manufacturing of goods and services until the outbreak of the deadly CoVID-19 .

This has really distorted the economic and health situations in the international community including Ghana.

Corona virus

As defined by World Health Organization (WHO), Corona viruses are a large family of viruses that causes illness ranging from the common cold to more severe diseases such as middle East respiratory syndrome (SARS-Cov)and severe acute Respiratory syndrome.

Corona viruses are zoonotic ,meaning they are transmitted between animals and people.

China has really demonstrated sense of readiness in fighting and preventing the spread of the deadly virus. Standard measures such as provision of medical nose masks, education on prevention measures as well as strict rules at the international borders.

China endeavor to play the role of protecting it's citizens as well as the international citizenry in China.

As a matter of responsibility the President and the entire administration of UESTC is really playing the role in fighting the deadly corona virus. The school has put measures in places such as an online application to check on the health status of their international student despite they are in their home countries.

An online tuition has been launched to help continue the studies of second semester of the academic year despite the stand still situation caused by the outbreak of the deadly corona virus .This gestures really shows the commitment and hard work of the school administration and China as a whole.

The president of (CWAS), Center for West African Studies, Professor Zhao Shurong and her team continue to educate the entire international students on the prevention measures as well as international students of school of

Public Affairs and Administration

An international student of UESTC Arriving at Kotoka International airport in Ghana

International student of UESTC discussing the corona virus situation at Global Fm in Ghana

Ghana as a peaceful country and prominent economic partners of China has put measures in place to help curb the deadly corona virus.

Ghana as the home secretariat of African Continental Free Trade Area is committed in working hand in hand with other Africa countries to put standard measures in place to fight the corona virus since it is a global issue of concern and worry.

The ministry of Foreign Affairs, Ministry of Health and Aviation Ministry continue to work hand in hand to put measures in place to curb the spreading of the deadly virus.

The airport authorities are on their regular duty to check the basic symptoms

of the passengers who arrive at the airport.

As a matter of urgency the president of Ghana has addressed the nation and to show his commitment ,Government officials have been ask to suspend all diplomatic assignment outside the country but rather resort to conference video calls and other technological means to conduct government businesses.

As it stands now there were suspected cases but all have proved negative upon lab research.

On the 12 of March 2020, the Ministry of Health confirmed two coronavirus cases .Both patients are currently been kept in isolation and are stable.

Both individuals returned to Ghana from Norway and Turkey.

The media houses in Ghana both television and print media is playing its roles in educating it's citizens on how to prevent the virus as well as what is going on both in China and the rest of the world.

As an international student of UESTC,I am playing my role in educating on the prevention measures as well as clear some misconceptions about the deadly disease.

With regard to this I wish to encourage us all to help fight the deadly corona virus.

Ghana is in support with China and the entire International community in fighting the deadly virus.

We love China.

Wo ai Zhounghou.

Long live China long live Ghana
