About SPAA

Message from the Dean

Welcome to School of Public Affairs and Administration! Led by our motto "Seeking equity for morality, seeking integrity for righteousness", we take great pride in the high quality of our two fundamental missions: **Teaching and Research**. Our students are developed into their full potential through our information knowledge based innovative teaching and cutting edge research projects that capture the imagination and open new worlds for them to explore. Being part of SPAA experience can allow our students for the harmonious development of the physical, the mental and the spiritual powers which is what true education is all about.

History

About UESTC

Renowned as China's cradle for the national electronic industry, University of Electronic Science and Technology of China is situated in Chengdu, the city of over a thousand-year-old cultural history in "the land of abundance". As one of the seven earliest key universities in national defense, UESTC became one of the nation's key universities in 1960. In 1997 it was included as one of the first universities into "Project 211". In 2001, UESTC was admitted into the Nation's Project 985, receiving special support for developing world-class universities and world-famous research-oriented universities. In 2017, UESTC was selected as one of "Double First-class" universities (top 36).

UESTC now turns out to be a key multidisciplinary university with Electronic Science and Technology as its nucleus, Engineering as its major field and featured the harmonious integration of Science, Engineering, Management and Liberal Arts, well prepared at the call of the history to come up as a high-level research-oriented university. In face of the new chances and challenges, the staff of the University will hold on its notion of "to seek facts and truth, to be noble and ambitious" in the pursuit of excellence and embark on the journey to a more glorious future.
